

#794/ "Miracle on Kuaie Street"

By Susan G. McIntosh / susan@actsfoundation.com / Week #2 of November 2011

Col. Tim and Patti Ryan, longtime friends of ACTS Foundation, have a lovely family home in Millilani, Hawaii. Their "prophet's chamber" is where we are staying on Oahu. A few years back their son, Matthew, as some of you may remember, traveled with us throughout England and Scotland. I will never forget the evening in England when Matthew Ryan met General Georges Sada, Saddam's former Air Commander from Iraq. General Sada, an awesome man of God, had tears in his eyes when he knelt down in front of Matthew and expressed his gratitude for Matt's dad and the US military's roll in bringing liberty to Iraq. It was one of those moments in life none of us there will ever forget, especially Matthew!

Patti Ryan has had numerous health issues through the years. She is a 20-year military veteran. Tim Ryan is still active duty. Most recently Patti has suffered from high blood pressure and Lyme's Disease. Dis-ease has been her plight! Many have been praying for her healing. Be assured,--esus, seated by Father, has also been interceding with us! How exciting to be here for her miracle! Monday night, October 31, Ralph and I came back to the Ryans' around 9 pm. Patti had already gone to bed, but, Tim stayed up to visit with us because he had something on his heart. Raised in the South he began by saying, "Miss Susan, I have waited up for you to come home because we need prayer." He began to tell me about a tremendous breakthrough God had done in his life. I love it when the Word becomes the Fresh Bread REVEALED Word! Tim had personally heard from God on some issues and he was excited to share. After months of praying for victory, God had met him up close and personal. So cool! I love on-Fire testimonies! When he finished sharing, I began to proclaim a fresh outpouring of the Holy Spirit on him from the top of his head to the souls of his feet. He prayed a receiving prayer while I decreed. Awesome! He asked prayer for Patti. It was then the Spirit told me we were to stay seated but extend our hands towards the master bedroom and decree the same Spirit-Fire over sleeping Patti. We did. Glory!

30 seconds or so after our "amena" Patti stumbled out of the bedroom and begged us, "Phone 911." She returned to their bed and fell across it. Ralph and Tim both had great difficulty getting even a faint pulse reading from her. Patti, a beautiful African American, was death gray! It was wild. I prayed in tongues, Tim spoke reassuring words to Patti in between calming their twin teen daughters and dealing with the emergency squad team. Ralph held Patti's face in his hands and spoke life to her. We all had a supernatural under-girding peace even though we were "all hands on deck" and alert. It is quite a story but briefly Patti, in and out of consciousness, was transported to a hospital in Wahiawa, Hawaii. The medical team went to work. At one point our dear Korean brother, Pastor Kim, came to the hospital and when he was allowed to pray over Patti, he decreed life and spoke prophetically over her, calling her forth as God's Mighty Warrior. Patti looked up at him and a light came into her eyes, a radiance to her face I haven't seen in quite a while. It was obvious to us God was raising her up for greater things, Hallelujah!

Once she was hooked up to machines to monitor her heart, Ralph and I took the girls home and Tim stayed by her bedside through the night. He told us later that he went through the concordance in the back of his Bible and with one hand on her, he read Scriptures aloud on healing. Her blood pressure was frighteningly high. Suddenly the machines went off. The doctor rushed in to check on Patti. Once the machines were running again, to everyone's amazement, her blood pressure had dropped 30 some points. Wow! Patti was moved to the military hospital around 4 am. When I saw her at 11 am., glory to God, it was down to 119 and her heart-rate was that of a young woman! She was dismissed from the

hospital and later testified to the doctor that during the time her pause was so faint, she had broken out in a drenching sweat which we all later concurred was the toxins of Lyme's Disease leaving her system supernaturally! Tim had a sense from the Lord even as he was following the ambulance to the hospital that something had lifted off her and sure enough—the thieving spirit of infirmity!

This photo is our Patti only 36 hours after she had lost consciousness! Ralph calls her "Lazarette"! Our God HEALED His Patti and we all had a front row seat for the performance of His Might and Power! I remember putting my hands on her when she was unconscious and wringing wet with perspiration and yet had no fever. It seemed baffling but then the Lord said to me, "Toxins are leaving her body." It became clear afterward that when Tim and I had obediently decreed the *Fire of God* on her even though we were seated in another room, that the power of God hit her body and the healing action all began. What looked awful and a huge emergency was really a mighty work of God to cleanse her body, His temple-- Patti Ryan! Wow!

What do you need from the Lord today! Romans 15:13 assures us that the God of HOPE can fill us with expectation through the power of His Holy Spirit. God has miracles for everyone of us. Invite Him! SMC
